

T10 & TX10 Hardline Cable Solutions...

The T10 & TX10 Hardline cable line is a seamless extruded tube. TFC's T10 & TX10 cable will outlast the standard welded tube cables.

This cable is designed to eliminate pinhole leaks and microcracking. This cable line can be used with all the coring tools and connectors.

Features

- Clean coreability and preparation
- Triple bonded
- Tighter bend radius than double bonded cable
- No air gap. Eliminates a common path for moisture found in \ double bonded cable
- Prevents suck outs
- Eliminates suck backs
- Works with industry standard coring tools and connectors
- NEC 820 CATV & CATVR listings available
- Recyclable reels and packaging
- All seamless tubing/non welded product

Cable Solutions for the CATV Market
