

## Broadband Component Solutions...

As more emphasis is being placed in the customer's hands to install their own equipment through the use of self-installation kits, the need for simple to use, high quality products have become more important than ever!

Amphenol Broadband Solutions deploys hundreds of thousands of self-installation kits annually to many of the broadband service providers, forward and reverse logistics companies and CPE refurbishment companies worldwide.

These companies depend on high quality kit components to match with modems, set-top boxes and DVRs that will ultimately be installed by the customers using them.

Amphenol Broadband is a proven leader, with worldwide distribution and infrastructure that can be relied on for high quality products and innovative solutions to fit any need.

Kits are available with a variety of components and packaging types that can be customized and designed to fit your individual kit requirements.
